

JOSHUA CAMP

SYSTEMS INTEGRATION • PROCESS IMPROVEMENT • TECHNICAL PRODUCT DEVELOPMENT

jcamp.mail@icloud.com • (337) 348-6568 • [linkedin.com/in/jcamp-connect](https://www.linkedin.com/in/jcamp-connect) • j05hcamp.github.io

PROFILE

Nearly 8 years leading customer-facing technical solutions for aerospace manufacturing—specializing in discovery, custom hardware/software development, and full lifecycle delivery. Prevented **8+ FOD-critical incidents** and resolved **3 program-level CARs** contributing **\$2M+ loss prevention value** through tailored RFID/IoT systems engineered in-house. Lead technical solutions for sales team: customer discovery → solution architecture → prototyping → production deployment.

SKILLS

Solution Architecture & Customer Discovery

Customer Discovery & Requirements Analysis • Solution Design for Custom Hardware/Software • Technology Research & Evaluation • Feasibility Assessment • Technical Proposal Development

R&D & Custom Systems Development

Custom RFID/IoT Solutions (Nothing Off-the-Shelf) • Hardware Prototyping • CAD (Fusion 360) • 3D Printing • CNC • Embedded Electronics • Iterative Design & Testing

AI-Augmented Development & Technical Program Management

Lead Development Projects (Product Vision to Deployment) • AI-Assisted Rapid Prototyping • React/Express.js/PostgreSQL • Mobile Platforms • UX/UI Design • System Architecture • Developer Coordination • Full Lifecycle Ownership

Process Methodology & Technical Communication

Lean Six Sigma Green Belt • DMAIC • Root Cause Analysis • Process Mapping • Technical Documentation • Video Production • Customer Education • Stakeholder Management

EXPERIENCE

Systems Integration Lead

Gould Southern — Lake Charles, LA

May 2018 — Present

- Lead end-to-end technical solutions for sales team—**delivered 12+ custom hardware/software deployments** across aerospace clients through full project lifecycle: customer discovery, solution design, technology evaluation, prototyping, development planning, and production delivery
- **Prevented 8+ FOD-critical incidents** and **resolved 3 program-level corrective actions** through customer-driven R&D of custom tracking solutions, contributing **\$2M+ estimated loss prevention value** in high-liability aerospace environments

- Build custom solutions combining hardware prototyping (CAD, 3D printing, CNC, embedded electronics), software product management (requirements definition, UX/UI specifications, prototype approval with senior developer), and system integration (RFID, IoT, databases) tailored to specific customer requirements
- **Identified and eliminated 5+ recurring operational bottlenecks** through root cause analysis, **reducing rework cycles by 30%** and improving production throughput across multiple aerospace programs

Technical Sales Representative

AT&T Mobility — Lake Charles, LA

Oct 2017 – May 2018

Provided technical product education on hardware/software integration to customers; consistently ranked top 5 in sales performance through consultative approach

Environmental Administrative Specialist

CB&I — Lake Charles, LA (Contract)

Apr 2016 – Feb 2017

Built Excel-based inventory system tracking 15+ storage units across 500-acre site; drafted SOWs, produced compliance reports

CREDENTIALS

Lean Six Sigma Green Belt — AIGPE™ (Credential #3282655842, Issued March 2026)

B.A., Graphic Design & 3D Media Animation — *Summa Cum Laude* — Southern New Hampshire University, 2023

Specialized in product design, 3D modeling, UX development, and technical requirements translation

TECHNICAL SKILLS

R&D & Hardware Engineering

Fusion 360 (CAD) • 3D Modeling • 3D Printing • CNC • RFID/IoT Systems • Embedded Electronics • Industrial PC Systems

AI-Augmented Development Tools

AI-Assisted Development (ChatGPT, Claude, GitHub Copilot) • React/Express.js • PostgreSQL • REST APIs • Git • Android Platforms

Design & Communication

Adobe Creative Cloud • Figma • UX/UI Design • Video Production • Technical Documentation • Customer Education

Methodology

DMAIC • Root Cause Analysis • Process Mapping • Agile/SCRUM • Design Thinking • Rapid Prototyping
